Company name _____

Company address _____

Dear business partner,

in order to ensure the smooth running of our joint business, some basic security aspects must be expressly regulated for formal reasons. To this end, we have reached the following agreement with you:

Orders with TelePart can be placed by telephone or electronically. Upon receipt of the order confirmation, you recognise the legally binding nature of the orders.

- You warrant that only authorised personnel will have access to the closed webshop area of TelePart Distribution GmbH and that you will take the necessary organisational and technical (security) measures.
- You warrant that the delivery addresses you provide to us or the persons acting there are authorised to accept deliveries on our behalf and that the transfer of risk takes place at this point in time at the latest.
- In the case of intra-Community deliveries, the tax authorities require the customer to expressly use the valid VAT identification number (VAT ID no.) issued to him by another EU member state for each order. For all transactions realised in the future under the customer number listed in our merchandise management system, we agree that the following VAT ID numbers will be used for VAT purposes until any revocation:

VAT ID no. _____

We kindly ask you to sign this letter as a legally binding declaration of consent and return it to us.

Received and agreed:

Place, Date:

.....
Legally binding signature / company stamp
